DEFINITION OF KEY TERMS

Programme: A grouping of similar projects and/or services performed by a Ministry or Department to achieve a specific objective; The Programmes must be mapped to strategic objectives.

Project: A project is a set of coordinated activities implemented to meet specific objectives within defined time, cost and performance parameters. Projects aimed at achieving a common goal form a programme.

Green Economy: The green economy is defined as an economy that aims at reducing environmental risks and ecological scarcities, and that aims for sustainable development without degrading the environment.

Indicators: An indicator is a measure that can be used to monitor or evaluate an intervention. Indicators can be quantitative (derived from measurements associated with the intervention) or qualitative (entailing verbal feedback from beneficiaries).

Outcomes: The medium-term results for specific beneficiaries which are the consequence of achieving specific outputs. Outcomes should relate clearly to an institution's strategic goals and objectives as set out in its plans. Outcomes are "what we wish to achieve". Outcomes are often further categorized into immediate/direct outcomes and intermediate outcomes.

Outputs: These are the final products, goods or services produced for delivery. Outputs may be defined as "what we produce or deliver".

Performance indicator: a measurement that evaluate the success of an organization or of a particular activity (such as projects, programs, products and other initiatives) in which it engages.

Outcome Indicators: Outcome indicators measure the quantity and quality of the results (change) achieved through the provision of services. An outcome indicator answers the question: "How will we know success when we see it?" Examples: Percentage decrease in child mortality; increase in productivity for small farmers; literacy rates in a given primary grade; etc.

FOREWORD

The Public Finance Management Act, 2012, (section 126) requires each County Government to prepare an Annual Development Plan (ADP) as a key document in planning and budgeting at the County level. The ADP is anchored to the County Integrated Development Plan (CIDP 2023-2027) and the Governor's Manifesto. The plan provides detailed programmes and projects to be undertaken by the various County Departments in the 2024/2025 financial year. It also highlights lessons learned and key challenges in the implementation of various projects for 2022/2023. Key recommendations to overcome the challenges note are also highlighted

The ADP 2024-2025 draws its projects and programmes from the Third Generation CIDP and the 16 sector priorities highlighted in the Governors manifesto. These include Agriculture, Water, Health, Education, Urban Development, Roads and Construction, Trade and Investments, Micro Small and Medium Enterprises, Cooperative Societies, Tourism and Hospitality, Women, Youth and Persons with Disabilities, Boda Boda, Environment, Energy, Information and Communications and Security.

The County has achieved tremendous progress on implementation of various programmes. Notable progress has been made in the areas of health care, food security, water provision, trade development, skills development and infrastructure development among others. This is despite various challenges, key among them being delay in disbursement of county funds by national treasury.

To accommodate the public views in the ADP, the county prepared an advert which was placed on the main stream media and uploaded on the county website and copies placed at all county field offices (Sub County, Ward and Village Offices) and key market centers to invite views from the public. The public responded positively and their views were captured in this ADP.

Implementation of this plan will enable the County to make strides towards realization of the envisaged Vision of an empowered and prosperous County with a high quality of life for her citizens.

Peter Mwikya Kilonzo

County Executive Committee Member

Ministry of Finance, Economic Planning and Revenue Management

ACKNOWLEDGEMENT

As a requirement of the Public Finance Management Act, 2012, each county government is supposed to prepare an Annual Development Plan (ADP) as one of the main documents required in the annual budget preparation process. This plan provides a framework that will guide the implementation of the programmes and projects in the 2024/2025 financial year, with a view of enhancing transparency and accountability to facilitate the realization of the planned county development aspirations as envisaged in the CIDP 2023-2027 and Governor's manifesto.

Despite the many challenges encountered, the County has achieved tremendous progress in the last financial year. Notable progress has been made in the areas of healthcare, food security, water provision, trade development, skills development and infrastructure development among others.

I would like to pay special thanks to the officers working under Economic Planning Department, led by Director Paul Kimwele, Assistant Directors Victor Mwangi, Alex Muthyoi and Solomon Musembi and all County economists and statisticians – Daniel Mbathi, Bonface Muli, Faith Muna, Nicholas Koome, Charles Mulatia, Geoffrey Gisaina, Linda Musee, Mary Muthui, Felistus Munyao, Gabriel Mitau, Dickens Mutunga, Onesmus Kaki, Joy James and Doris Samuel, for the critical role they played in the development of this ADP. Their dedication on this course led to preparation of the plan within the stipulated timeframe.

Finally, I wish also to acknowledge all other stakeholders particularly, Anglican Development Services Eastern (ADSE) who directly or indirectly contributed to the successful development of this plan.

Patrick Masila Munuve

Chief Officer Economic Planning and Budgeting

Ministry of Finance, Economic Planning and Revenue Management

CHAPTER ONE: INTRODUCTION

1.0 Overview

This chapter provides the background information of the Kitui County, including the size of the County, administrative structure, physiographic and natural conditions of the county and population size. The chapter further explains the linkage between this plan and the CIDP.

1.1 Background Information

Kitui County is among the 47 Counties established in 2013 Constitution of Kenya 2010. The County is inhabited mostly by Kamba and Tharaka Communities. The County is rich in mineral resources, namely: coal reserves in Mui Basin, Limestone in Kitui south, Ballast in Kitui rural and sand which is found in all areas of the County. On Tourism, forty-six (46) percent of the Tsavo East National Park is in Kitui County and has a great heritage with great untapped tourism potential. Proximity to Nairobi and the Standard Gauge Railway offers great opportunities for economic transformation of the County. Permanent rivers, namely, Tana and Athi flow through the County.

Kitui County is among the Arid and Semi-Arid (ASAL) counties characterized with low rainfall. The County's level of absolute poverty is estimated at 63.1% percent compared to the national average of 36.1 percent as per 2019 census. To address these issues, the county has put in places various interventions and has made significant milestones on the health care provision, food and water, wealth creation and people's empowerment. Fifty-seven percent of the household's populations now have access to clean water with average time spent on water access reduced from 30 minutes to 20 minutes. The County is a member of South Eastern Kenya Economic Block (SEKEB) composed of three counties: Kitui, Makueni and Machakos.

1.2 Development Planning.

Kitui Annual Development plan 2024/2025 FY gives the development projects to be considered in preparation of County Fiscal Strategy Paper 2024/2025 FY and Annual estimates in 2024/2025 FY. The ADP gives the strategic priorities for the medium term that reflect the county government's priorities and plans and description of how the county government is responding to changes in the financial and economic environment.

The projects and programmes are developed from the third generation County Integrated Development Plan (CIDP) 2023-2027 and the Governor's manifesto highlighting the 16 county sector priorities as outlined here below:

However, the highland areas namely, Migwani, Mumoni, Kitui Central, Mui and Mutitu Hills exhibit a sub – humid climate. The lowest annual average temperature is 14⁰C and the highest annual average temperature is 32⁰C.

1.3 Demographic Features

1.3.1 Population Size and Composition

The County's population was 1,136,761 based on the population and household census report of 2019. The population size is projected to be 1,187,894; 1,214,317 and 1,241,326 persons in 2021, 2022 and 2023 respectively. The level of urbanization was estimated at 14.9 percent in 2019 and is expected to rise to 15.5 percent in 2023. This rate of urbanization has clear implications for the need for urban planning.

1.3.2 Population Density and Distribution

According to 2019 Census report Kitui County had a population of **1,136,761** projected to **1,241,326** in 2023, the County population density has increased from 33 persons per Km² in 2009 to 39 persons per Km² in 2019. This is compared 75 persons per Km² in 2019 in the National Level. The population density is projected to increase to 41 persons per Km² in 2023. Kitui Central has the highest density of 229 persons per Km² in 2019 and estimated to increase to 250 persons per Km² in 2023.

The distribution per administrative units is indicated in table 2

1.4 Legal basis for Annual Development Plan and Linkage with CIDP

The Public Finance Management Act, 2012, (section 126) requires each County Government to prepare an Annual Development Plan (ADP) in accordance with Article 220 (2) of the constitution. The ADP which is submitted for approval to the county assembly not later than 1st September of each year provides for, *inter alia*, strategic priorities for the medium term that reflect the county government's priorities and plans; county programmes and projects to be delivered; measurable indicators of performance where feasible; and the budget allocated to the programme and projects.

The ADP is anchored to the County Integrated Development Plan (CIDP 2023-2027) and the Governor's Manifesto. The Kenya Vision 2030 is the national blueprint that forms the national development agenda that is being implemented through a series of 5-year Medium Term Plans (MTPs). At the County level, CIDP 2023-2027 is anchored to the Vision 2030. The medium-term plan is then implemented through Annual Development Plans. Figure 2 provides a diagrammatic presentation of the link between the ADP, CIDP and other plans.

FIGURE 2: ADP LINKAGE WITH OTHER PLANS

1.5 Strategic Priorities of the Plan

The project priorities in 2024/2025 FY ADP are in line with the Kenya vision 2030, the Governors sixteen sector priorities; Agriculture, Water, Health, Education, Urban, Roads and Construction, Trade and Investment, Micro small and medium Enterprises, Cooperative Societies, Tourism and hospitality, Women Youth and PWDs, Environment, Energy, Information and Communication, Security, SDGs and CIDP 2023-2027. The county government is focused on the following key strategic sectors in order to achieve its development agenda: Food and water (through irrigation, agriculture extension services, livestock promotion, fish production and water accessibility); Health care (through provision of medicine, health care staff, medical facilities and Health insurance); Education and Youth Development (by building ECDE classes, provision of learning materials, ECDE teachers, Toilets, Skills development centers and ICT centers) , Women empowerment and Wealth creation (by strengthening formation of cooperatives and promotion of trade)

1.6 Preparation process of the ADP

The preparation of this plan was done in line with the laid down guidelines. The preparation process was consultative as provided in the Part XI section 109 and 110 of the County Government Act, 2012. Sector-specific stakeholder forums were held for each department to prioritize programmes and projects to be implemented in the FY 2024/2025. The sectors analyzed and prioritized the projects in the ADP 2024-2025FY.

CHAPTER TWO: REVIEW OF THE IMPLEMENTATION OF THE PREVIOUS ADP

2.1 Introduction

This chapter provides a review of County government achievements, challenges and lessons learnt during the implementation of the previous ADP (2022/2023 FY). The chapter gives summary of the previous year's projects, level of implementation and project cost in relation with the overall budget.

2.3 Challenges experienced during implementation of the previous ADP

- a) **Access to Financial Resources:** Inadequate financial resources to match increased demand for projects by the public. There is also lack of an operating loan scheme to finance traders including contractors/merchants.
- b) **Inadequate Local Revenue Mobilization Framework:** Part of resource envelop for the county is locally collected revenue from different streams. Certain frameworks were lacking during 2022/23 financial year, including revenue enhancement plan, revenue administration bill and establishment of County Liquor Boards.
- c) **Technology:** Low adoption of some of the appropriate technologies due to low resource base among farming communities and effects of climate change and variability.
- d) **Vastness of the County,** making service delivery costlier, especially ambulance referral system, cold chain management and general service provision.
- e) Poor network connectivity. With the introduction of internet banking and the requirement that all payments should be done through IFMIS, there is a need for stable network connectivity. However, the connectivity in the county is poor that sometimes payments cannot be processed in time.
- f) Encroachment and insecurity especially in National reserve and other protected areas remained a development bottleneck.
- g) **Monitoring, Evaluation and Reporting:** Inadequate project supervision by the technical department leading to delay in project completion and sometimes compromised/low-quality works.
- h) Lengthy projects documentation and procurement process leading to delays in implementation of the projects. Sometimes the Bills of Quantities (BoQs) do not capture all the major aspects of the project resulting to variations to make the projects usable. This results to increase in project costs and delays in implementation
- i) Inadequate infrastructure which includes inadequate office space, staff quarters and service delivery points.
- j) Frequent breakdown of medical equipment in the hospitals hence paralysing diagnostic services
- k) High burden of malnutrition in the Count , stunting rate - 29.8, global acute malnutrition - 6.1 (2023 Smart survey)
- l) Erratic supply of health products from Kenya Medical Supplies Authority (KEMSA) and Mission for Essential Drugs and Supplies (MEDS).
- m) Poor health seeking behavior of some people due to cultural and religious practices entrenched in some sub-counties and high poverty levels in the County (47.5% which is above the national rate of 41.9% as per the 2019 census)
- n) Vaccine hesitancy by some communities and religious sects e.g., measles outbreak in some parts of Mwingi in May 2023 was mainly among the unvaccinated adults and children.
- o) Lack of a county waiver and exemption policy leaves a gap in the implementation of the waivers and exemptions
- p) The owner of the Boards office premises, issued an eviction notice / doubling rent charge. Hence the board needs an office block as soonest.
- q) Poorly distributed, unreliable and inadequate rainfall leading to frequent droughts in various parts of the county;
- r) Inadequate water sources – low-yielding boreholes;

- s) Lack of readily available land for construction of Speaker’s residence and ward offices and lengthy bureaucracies involved in acquiring land for the construction purposes.
- t) **Transport network/Logistics:** Inadequate transport and logistical facilities for project implementation, supervision, monitoring, evaluation and reporting. Poor road network inhibiting access to some of the project sites which led to delays and sometimes extra costs

2.4 Lessons Learnt and Recommendations.

Lessons learnt

- a) County ministries which have comprehensive annual work plans with realistic procurement plan, cash flow projection had enhanced timely project implementation.
- b) The Medium-Term Expenditure Framework (MTEF) budgeting process ensures effective planning at the county and therefore all ministries should embrace MTEF budgeting approach.
- c) Proper linkage of programmes/ projects in CIDP with ADP and CFSP will lead to actualization of the shared vision under five pillar manifestos.
- d) Monitoring and Evaluation (M&E) provides information to help in decision making and track progress of project and programme implementation.

Recommendations

- a) Streamline the procurement process, build technical and financial capacity of the local contractors.
- b) Design and implement a comprehensive monitoring and evaluation system that will help in managing for impact and ensure high quality of works and services done.
- c) County Government should employ and adequately train personnel to improve public service delivery.
- d) County Government should support the formation of SACCOs to enable easy access of finances and loans.
- e) Leaders in the County should work together to foster cooperation and be in the forefront in bringing people together.
- f) All ministries to ensure procurement of programs for FY 2024/25 will begin in the first quarter of the financial year so as to improve the completion rate of the projects.
- g) The County Assembly and County Executive should work harmoniously to ensure timely budget approval and project implementations.
- h) The County Government to gradually increase annual health budget so as to enable the Ministry meet its obligations. Further, increased funding to health Ministry by the County Government will also enable the County to benefit more from World bank sponsored grants, namely, Transforming Healthcare Systems for Universal Care Programme (THS-UCP).
- i) Finalization and adoption of Kitui Health Bill so that the ministry recommends retaining of the revenue collected by the hospitals and the Public health department to cushion these facilities from inadequate funds.
- j) All department to sensitize contractors on procurement as a way of addressing procurement technical challenges.

3.2.15 Kitui Municipality

Urbanization is an overpowering phenomenon with the world’s population projected to be 60% urban by the year 2030. The high correlation between urbanization and economic growth is of critical interest to decision makers, especially aiming at harnessing the opportunities urbanization presents. Hence, SDG number 11 “*to make cities and human settlements safe, inclusive, resilient and sustainable*” is anchored on the need to optimize the opportunities in the urban areas for the benefit of the people. Kenya’s vision 2030 is a development blue-print aimed at actualizing among other things the economic transformation potential sustainable urbanization nudges.

The Urban Areas and Cities Act (UACA) 2011 is the legal anchorage for the creation of well planned, vibrant and efficient urban areas in Kenya. The Act in operationalizing the Constitution of Kenya 2010 and the County Governments Act 2012, provides that urban areas are of critical importance to the County Governments and as such should be managed in an efficient and effective manner with their own semi-autonomous management structure (towns and municipalities) to ensure quality service delivery. Hence, Kitui Municipality which is the Kitui County headquarters has its own administrative structure as required by law. The County Headquarters covers 587 Square Kilometers (former Kitui Municipality), with the core town covering 195 Square Kilometers. The core town population was 147,589 (The Kenya Bureau of Statistics (KBS) census of 2019), and hence is estimated at 151,573 above with an average growth rate of 2.7% and especially because of the effect of devolution around the county headquarters.

3.2.13.1 Vision and Mission

3.2.16 Mwingi Town Administration

Mwingi Town is in Kitui County of Kenya. The Town is located along A3 Road between Nairobi and Garissa, 47 kilometers north of County Headquarters, Kitui and about 200 kilometers east of the Kenyan Capital City, Nairobi. The Town was started around the year 1974. On 25 February 1992, Mwingi trading Centre was conferred a status of Mwingi town council through an act of parliament from formerly Kitui county council. The town council covered a radius of 16kms from the beacon at Kenya Commercial Bank, Mwingi Branch round about.

After inauguration of the constitution of Kenya 2010 which established the county governments, Mwingi Town Administration was established in 2014 as per the Urban And Cities Act 2011 as a department in the County Ministry of Lands, Infrastructure, and Housing and Urban Development. The town administration delivers its services to the citizens through its five sections: finance & revenue assurance; environment, culture, recreation and community development; planning, development control, transport and infrastructure; trade, commerce and industrialization; and administration and corporate services.

The town continued to grow, necessitating conferment of a Municipality status. In compliance with the provisions of section 9 of the Urban Areas and Cities Act 2019, the County Assembly of Kitui on 13th May 2020 approved a report by the committee of Lands, Infrastructure, and Urban Development on consideration of the Mwingi Municipal charter. The governor of Kitui County conferred the status of Municipality to Mwingi Town by way of grant of Municipal Charter on 9th June 2020.

The Municipality of Mwingi currently has a population of 108,823 (according to Kenya Bureau of Statistics 2019 Census) spread across its 35 sub locations. The gender distribution has the male population at 52,527, female population at 56,292 while intersex population is recorded at 4.

The importance of Mwingi Municipality derives from its significance as a revenue base and being one of the six Economic Zones in Kitui County. The justification for this is that the Municipality is a trade and commercial hub area of the County, given its location on the Nairobi – Garissa highway (A3), proximity to Mui coal basin and the proposed Lamu Port-South Sudan-Ethiopia-Transport (LAPSSET) transport corridor.

Mwingi Town Administration comprises the following 5 Sections;

- i. Finance and Revenue Assurance;
- ii. Trade, Commerce and Industrialization;
- iii. Planning, Development Control, Transport & Infrastructure;
- iv. Administration and Corporate Services; and
- v. Environment, Culture, Recreation, and Community Development.

3.2.14.1 Vision and Mission

Vision:

A centre of excellence in sustainable urban development, management and service delivery

Mission

To sustainably develop and manage Mwingi Town through ensuring stakeholder engagement, controlled land development, and delivering quality socio economic, infrastructural and environmental services to the traders in, residents of, and travelers through, the Municipality.

3.2.14.2 Town Administration's Core Functions

The mandate of the Municipality derives from the Law. Section 31(3) of the UACA provides that the Municipal Manager shall perform such functions as the board appointed under section 20 (2) may determine. The assumption here is that the functions determined by the municipal board shall be in line with its roles as provided for in Sections 20(1) and 20(2) of UACA read together with Sections 148, 157, 170, 171 of the Public Finance Management Act No. 17 of 2012, Section 48 of the County Governments Act No. 17 of 2012 as listed below.

- i. Oversee the day-to-day affairs of the town/municipality

CHAPTER FOUR: RESOURCE ALLOCATION.

This chapter gives detailed budget summary for the proposed Programme according to the sector. It also provides a resource allocation criterion, revenue projections, budget funding options available within the economic environment, Risks, assumptions and mitigation measures.

4.1 Resource allocation criteria

This section indicates the criteria used in the allocation of resources per Sector/sub sector and per Programme.

Resources are allocated based on the following criteria;

- a) Special consideration given to the on-going programmes/projects;
- b) Expected outputs and outcomes of the Programme;
- c) Linkage of the Programme with the objectives of the County Government, the Governor's Manifesto and the CIDP;
- d) Degree to which the Programme addresses core poverty interventions;
- e) Degree to which the Programme is addressing the core mandate of the department;
- f) Cost effectiveness and sustainability of the Programme/projects.

4.2 Proposed budget by Sector

This section shows the proposed budget for each programme identified in chapter three.

4.2 Financial and Economic Environment

The County Government has experienced financial and economic constraints and had established ways of responding to the challenge. The County Ministry of Finance, Economic Planning and Revenue Management has much automated the revenue collection in order to boost the current revenue status. Other sectors have developed policies to streamline revenue collection across the county.

According to the County Governments Act, the different revenue sources available to the County governments are categorized into the following sources;

Exchequer: This is fund transfers from the National government to Counties: The national government distributes 15% of its revenue to all 47 Counties to support in development according to Part 4 of the constitution 2010. The Counties allocates 30% of all revenues to development and 70% to recurrent expenditure.

Local Revenue: The County local taxes are as per the table below:

1. Local Taxes	2. Fees
Property Taxes Single Business Permit. Cess Royalties	Advertising billboards, murals Fines & penalties Land based transactions Burial and cemetery National park fees Various permits and approvals Entertainment
3. User Charges	4. Borrowing
Parking fees Fire services House rents Hire of facilities or equipment	Bank loans & overdrafts External loans Private Public Partnership Initiative Issue of bonds or stocks
5. Income from Investments	
Interest and dividend from investments Sale of shares and stocks Sale of bonded assets and inventory	

Grants: Section 47 of the Public Finance Management Act stipulates that a County can receive grants from the National government, its agencies and third parties. Since the County did not undertake a comprehensive assessment of grants and analyze how best to tap into the opportunities in 2022/2023 FY, the assessment will be carried out in 2023/2024 FY.

Loans from local institutions and Bank overdrafts: The Public Finance Act allows County governments to obtain loans and issue securities for purposes of development. The Act is very elaborate on the way the loans should be managed.

The proposed allocations will be financed through equitable share, own source revenue, and grants from development partner.

4.3 Risks, assumptions and mitigation measures.

This section indicates risks, assumptions and measures during the implementation period.

TABLE 5: RISKS, ASSUMPTIONS AND MITIGATION MEASURES.

Risks	Assumption	Mitigation measures
Economy difficulties experienced by National Government hence affecting funds disbursements.	Effective Tax collection hence National Treasury will do timely disbursement of the equitable share funds. That there will be a conducive political environment both at national and county level. That the Macroeconomic variables will not change adversely.	To prevent delays in project Implementation, County ministries must develop a comprehensive annual work plan that will include an elaborate procurement plan and cash flow projection and strictly adhere to it as it will ensure timely project implementation.
Delay in obtaining the necessary approvals has had negative effects in the past. Bills, policies and implementation guidelines that take longer to pass result in lost revenues and postponed implementation of programs and projects.	There will conducive political climate during the financial year.	The County Executive will work closely with County Assembly to ensure no delays. In addition, all planning documents will be submitted in time giving discussion framework by County Assembly. Sensitization of County assembly and the County executive.
Constrained absorption of development funds necessitating supplementary budgets and consequently shifting priorities.	That the sectorial priorities will not change over the planned period.	The county ministries will embrace MTEF framework in their budgeting as this will ensure departments have a clear planning framework in the medium term. It is also necessary to ensure that the project and program in the ADP, CFSP and Annual Estimates are linked to projects and programs in the CIDP.

CHAPTER FIVE: MONITORING AND EVALUATION

5.1 Introduction

The chapter explains how projects and programmes to be implemented during the 2024/2025FY will be monitored and evaluated. It also outlines objectively verifiable indicators that will be used to monitor the progress of implementation of projects and programs.

5.2 Monitoring

Monitoring is the process of continuously keeping track of implementation of a Programme or project activities within a period of time at specified intervals to assess progress. It entails collection and analysis of data to determine whether planned activities have been done. Monitoring of the entire process from planning, designing and implementation is very important as it keeps the planned activities in check, reduces duplication and wastages, allows for remedial measures to be taken and ensures the projects/ programmes delivery on time.

a) Monitoring and Evaluation Exercise

The Monitoring and Evaluation Unit which is in the department of Economic Planning will monitor progress of implementation of projects and programmes. The unit will carry out monitoring and evaluation of the progress of implementation of planned projects and prepare reports for submission to relevant personnel for action. The reports will include quarterly review, half year review, third quarter review and end of year review.

b) Review Meetings

After preparation of the monitoring report, there shall be review meetings to assess the report and map a way forward. This will keep the planned activities and outputs on track during implementation, and enable the relevant personnel to identify and take necessary actions to address any emerging issues.

5.3 Evaluation

Evaluation entails checking the impacts the project/Programme activities had on the community. It builds on the monitoring process by identifying the level of short to medium-term outcomes and long-term impacts achieved; the intended and unintended effects of these achievements; and approaches that are working well and those that do not work well. The evaluation process will be done at the end of the plan period to ascertain the level of implementation of the Programmes and achievement of the plan objectives. This will involve checking on appropriateness, effectiveness, efficiency, lessons learnt and also provide feedback.

The M&E reports are used in two ways: First, to make management decisions such as resource allocations or change of strategy (managing for results) and second, to inform the citizens on the progress the county government has made or otherwise (managing for accountability). The M&E report presents results on each element of the results chain (inputs, activities, outputs and outcomes). This way citizens are able to hold the county government to account. To ensure an effective M&E system, the county intends to put in place key components. These include an M&E unit, adequate human resource capacity, indicator handbook, appropriate policy framework and an M&E plan for the county.

5.4 Reporting

Reporting is important in this process because it provides feedback to establish the challenges, successes and weaknesses in the implementation of various projects and programmes and whether the set objectives can be achieved or are on course. Monthly Monitoring and Evaluation Reports will be prepared and submitted by the Economic Planning department in order to show progress of projects.

In this regard, a County Annual Monitoring and Evaluation Report (CAMER) is to be produced and submitted to the Governor's office for information, use and dissemination to the stakeholders. Issues requiring policy interventions will be submitted to the County Executive. This report will outline in summary of projected targets achievements, facilitating factors and challenges faced.

5.5 Data Collection, Analysis and Reporting

The monitoring and evaluation exercise will be carried out by the officers from the County department of Economic Planning together with relevant technical officers from the implementing department. The exercise will entail physical observation of the projects and programmes being implemented, actual verification of items delivered where applicable and survey of stakeholders to ascertain the impact of the projects/programmes. The Monitoring and Evaluation data will be analyzed and reports prepared for submission to the Governor for her information and appropriate action. These reports will outline in summary the period achievements, shortcomings, challenges faced and recommendations.

CHAPTER SIX: CONCLUSION AND RECOMMENDATIONS

6.0 Introduction

This chapter identifies key policies and measures to be considered in implementation of the 2024/2025 FY ADP in order to have sustainable economic growth across the county. The measures include: Revenue enhancement, effective public participation, participatory Monitoring and Evaluation, Incentives for Investment, Enhanced Fiscal Discipline and coordination of Development

6.1 Revenue enhancement

The County shall put in place revenue collection mechanisms and systems to ensure the achievement of revenue collection targets. During this financial year the County will undertake measures aimed at expanding the revenue base and increasing tax compliance through integration of technology in revenue collection. The County will seal leakages to ensure that the gains met by better targeting and collection practices are not reversed.

6.2 Enhanced public participation

Participation of the citizen in decision making is recognized in Article 10 of the Constitution of Kenya as one of our national values and principles of governance. Further Article 174(c) provides that the object of devolution is to: “Enhance the participation of people in the exercise of the powers of the State and in making decisions affecting them.” The County continue to entrench effective public participation in policy formulation, planning, budgeting, implementation, monitoring and indeed all spheres of governance. This is expected to yield better outcomes in enhancing Transparency and Accountability. All sectors are expected to comply with this key policy thrust by identifying relevant stakeholders and ensuring that a framework for public participation is developed and executed.

6.3 Fiscal discipline

Strong financial management systems are essential for improved service delivery. Effective financial management systems in the County will maximize financial efficiency, improve transparency and accountability, which will contribute to long-term economic success. The government will continue being guided by the principles of public finance in financial management as outlined in Article 226 of the Constitution of Kenya and PFM Act, 2012. All expenditure to be incurred by the government will be within the approved budget.

6.4 Coordinated implementation of plans

The county will have a coordinated approach in project identification, planning, budgeting, implementation and reporting to ensure proper project tracking for effective service delivery.

The County will therefore seek to entrench timely reporting of both budget and program implementation from a well-coordinated planning unit. Quarterly and annual Monitoring & evaluation reports are expected to provide timely updates on implementation for management to make appropriate interventions for effective and efficient delivery of planned outcomes. This will involve use County Integrated Monitoring and Evaluation System.

6.5 Incentives for investment

Investment promotion in the County is considered as a major economic enabler. Quality investment is expected to unlock the County's potential for economic growth and prosperity. In this regard, sectors are expected to identify opportunities for boosting investments and spice up the environment with incentives for exploiting such investments. Priority should be given to investments that hold greater potential for employment creation and poverty alleviation.

MINISTRY OF FINANCE, ECONOMIC PLANNING AND REVENUE MANAGEMENT

CALL FOR WRITTEN COMMENTS AND MEMORANDA ON THE FY 2024/2025 KITUI COUNTY ANNUAL DEVELOPMENT PLAN

The Kenya Constitution 2010 calls for openness, accountability and public participation in financial matters. Further, section 126 of the Public Finance Management Act, 2012 requires the County Governments to prepare County Annual Development Plan (ADP). The ADP lays the foundation and sets the tone for priority projects and programmes to address the development challenges that face the county. It also provides information on the county (location, size, physiographic and natural conditions, demographic profiles, administrative units, legal framework and linkage to County Integrated Development Plan), progress of implementing the previous ADP, strategic priorities, programmes and projects, resource allocation, Monitoring and Evaluation and key recommendations. The ADP draws programmes and projects from the County Integrated Development Plan 2023 - 2027.

In regard to this, the County Government of Kitui invites members of the public, civil society groups, private sector, state agencies and all interested persons or groups to submit their comments, memoranda and proposals for inclusion in the County Annual Development Plan 2024/2025. The draft ADP is available on Kitui County website via link www.kitui.go.ke.

Please submit your comments, views, inputs, memoranda or proposals to any of the following offices:
a) Economic Planning and Budgeting Chief Officer's office.
b) Any of our Sub County and Ward offices.

You may also submit your views online via the email munuvemp@gmail.com so as to be received on or before, **Tuesday, 22nd August, 2023**.

INVITATION FOR BID (IFB)

TradeMark Africa (TMA) is a leading African Aid-for-Trade organisation that was established in 2010. TMA aims to grow intra-African trade and increase Africa's share in global trade, while helping make trade more pro-poor and more environmentally sustainable. Our focus on reducing the cost and time of trading across borders through enhanced trade policy, better trade infrastructure, standards that work for businesses, greater use of digital innovations and a focus on creating trade access for vulnerable groups, has contributed to substantially lower cargo transit times through improved border efficiency, and reduced trade barriers.

TMA recently rebranded from TradeMark East Africa (TMEA), reflecting our ambitions to serve partners in driving continental-wide trade gains, and are expanding from East and the Horn of Africa to Southern and West Africa. TMA operates on a not-for-profit basis and is funded by institutional and philanthropic development partners. TMA works closely with regional and continental intergovernmental organisations, national Governments, the private sector, and civil society organisations to deliver results that drive shared prosperity and reduce poverty.

ANNEX II PUBLICATION PARTICIPATION (b): PUBLIC VIEWS, COMMENTS AND MEMORANDUM ON FY 2024/2025 ADP

To ensure openness, accountability and public participation, The county ministry of Finance Economic Planning and Revenue Management placed an advert on Daily Nation dated **Friday, 19th August 2023** to seek written comments and memorandas on draft annual development plan. The listed groups and individuals (i.e., Ndole Malonza, Kitui County Civil Society Organizations Network and Nature Kenya) provided their feedback as follows:

Program	Activities	Sub County	Ward	Name of proposer	Contact
Food Security	Harvesting rain water, Irrigation, Infrastructure	Mwingi central	Mui	Ndole Malonza	712356356
Roads	Road construction to market centers, Road repair like Nuu bridge	Mwingi central	Mui	Ndole Malonza	
Health	Stocking medicine	Mwingi central	Mui	Ndole Malonza	
General Insights	ADP 2024_25 draws its programme and projects from CIDP 2023-27 and 16 sector governor's manifestos. Issues women, youth and people living with disability are well addressed.	Kitui County	All wards	Kitui County Civil Society Organizations Network supported by institute of public finance	vjustus@ipfglobal.or.ke
Development budget absorption	Span of last ten years county has allocated 40.8 billion with utilization of 26.6 billion translating to 65% of absorption hence underutilization of resources. County need to leverage on technology on tracking and reporting, investing in capacity building of staff transference and accountability. County Budget Transparency	Designed to gauge accessibility and disclosure of government documents as mandated by laws. Recognizing the pivotal role that informed public decisions play in shaping budgets, counties are mandated to generate and promptly publish essential budget documents online. In the past three survey cycles, Kitui County has demonstrated a consistent and commendable trend of enhancing the accessibility of budget-related information to the public. the Citizens Budget has room for enhancement. The document only attains 12 out of 100 points, leaving several crucial details undisclosed	Kitui County	All wards	Kitui County Civil Society Organizations Network supported by institute of public finance	fmasikonte@ipfglobal.or.ke
	An area that necessitates focused improvement pertains to revenue information, Notably, there are gaps in crucial documents such as the approved Programme Based Budget (PBB), Citizens Budget, and Annual Development Plan (ADP). These gaps result in incomplete information about local revenue. Addressing these gaps is essential to bolster transparency, accountability, and public trust	Kitui County	All wards	Kitui County Civil Society Organizations Network supported by institute of public finance	fmasikonte@ipfglobal.or.ke
Public participation	Commendably, Kitui County has furnished information regarding public participation in key documents such as the Annual Development Plan and the County Fiscal Strategy Paper. Specifically, the county has aptly outlined the priorities submitted by the public through these engagement mechanisms. we recommend that Kitui County considers extending the practice of outlining public input, priorities, and decisions to all pertinent documents, including the approved Programme Based Budget. Performance of Own Source Revenue	For the effective realization of county plans, a reliable revenue stream is imperative. t. Reviewing the past six fiscal years, the county had set a target of approximately 46 billion in own-source revenue. However, the actual collection amounted to about 26 billion, translating to a mere 56 percent of the targeted goal. The county is	Kitui County	All wards	Kitui County Civil Society Organizations Network supported by	fmasikonte@ipfglobal.or.ke

	poised with substantial potential, as highlighted in a recent report published by the Commission on Revenue Allocation (CRA). This comprehensive report, unveiled in October 2022, underscores that Kitui County stands out as one of the sixteen counties that have experienced moderate growth exceeding 50 percent over the past six years. In light of this report, we recommend that Kitui County proactively explores avenues to bridge the gap between its current revenue collection and its potential.			institute of public finance
